

The spherical head lifting shackle is used with the spherical head lifting pins. Even under load, movement is possible and if correctly fitted uncoupling is impossible.

Note: Shackles are suitable to fit a range of pin sizes as below.

1.3T pins = 1.3T Shackle4T & 5T pins = 5T Shackle15T & 20T pins = 20T Shackle

2.5T pins = 2.5T Shackle 7.5T & 10T pins = 10T Shackle 32T pins = 32T Shackle
